About

I am a web developer since 2010, located in Florianópolis, Brazil. Most of my personal skills that I can point are the curiosity, the organization on coding, the seek for self improvement.

I have experience in developing mid to large-scale websites and web-applications based on webstandard technologies like PHP, HTML5, CSS3, JavaScript.

Expertise & Core Skills

- **Development:**
 - PHP
 - HTML5
 - CSS3
 - Javascript
 - Responsive Development
 - Performance optimization
- **Tooling / Workflow:**
 - Git: Git Flow, GitHub Flow
 - Package Management: npm, git

Work History

- **Dzigual: Fullstack Developer**

Worked as fullstack developer in a project doing a lot of work in angular as front-end and some stuff in PHP as back-end.
- **Ágora Entertraining: Fullstack Developer**

Worked in functionalities of a custom system, refactoring legacy code and implementing new features with PHP Slim Framework.
- **Grupow: Back-end Developer**

Work in a lot of projects, with PHP Yii Framework, doing the CRUD of sites and also a lot of features in custom web systems.
