👤 PROFILE

Being in IT development since 2010. I started as a full stack developer and migrated to front end development. Moved to Lisbon, Portugal in 2019.

Looking forward to new challenges and opportunities in my career. Highly team-oriented and love new tech, currently, interested in improving my React skills.

💼 EMPLOYMENT HISTORY

Senior Front-end Developer at KWAN, Lisbon, Portugal
September 2020 — December 2021

Inside KWAN I worked as an external employer for MB.io, in a financial team as part of the process for the consumer.

Technologies involved are VueJS framework, Git, TypeScript, CSS3, HTML, Agile.

Reason for leaving: End of contract.

Senior Front-end Developer at Unbabel, Lisbon, Portugal
May 2019 — April 2020

Unbabel is one of the biggest Portuguese start-ups, I worked with several cross-functional teams being responsible for the front-end role in the projects.

Responsibilities:

- Community - refactoring and troubleshooting bugs in the system
- Glossary-Tools - building the platform in the Vuejs framework
- FAQ - facilitated migration of the editor program using vue+vuex+vuetestutils

Reason for leaving: COVID mass-firing 80% of the company.

Senior Front-end Developer at PrimeIT, Lisbon, Portugal
March 2019 — May 2019

Participated in a short term project as a front-ended to help with migration of a legacy system in NOS Portugal using PHP and Vuejs

Senior Front-end Developer at PDMFC, Lisbon, Portugal
February 2019 — March 2019

Participated in a short term project as a web developer to help mobile apps oriented in Angolan and African markets since the technology there is outdated. Used PHP and Vuejs

Front-end Developer at Warren - Fintech Startup, Porto Alegre, Brazil
September 2018 — January 2019

Warren is one of the biggest fintech startups in Brazil. Started as a pilot for several new technologies and methodologies like agile and scum and others. My team was responsible for validation of tech app and test proving concepts using VueJS with Typescript

Front-end Developer at Dzigual Golinell, Florianópolis, Brazil
June 2017 — September 2017

Fullstack Developer at Ágora Entertraining, Itajaí, Brazil
2017 — 2018

Back-end Developer at GrupoW, Balneário Camboriú, Brazil
December 2014 — September 2015

WebDeveloper at H2K Agência Web, SC, Brazil, Brusque, Brazil
May 2014 — November 2014

FullStack Developer at Via Artistica, Balneário Camboriú, Brazil
September 2011 — May 2012
